

OFFICE OF INSPECTOR GENERAL

U.S. Agency for International Development

MEMORANDUM

DATE: January 19, 2024

TO: USAID/Management/Office of Acquisition and Assistance/Cost Audit and Support Division/Contract Audit Management Branch, Sheree. F. Marshall, Supervisory Auditor

FROM: Director of External Financial Audit Division (IG/A/EFA), David A. McNeil /s/

SUBJECT: Financial Audit of the Schedule of Expenditures Incurred by People In Need in Multiple Countries Under Multiple Awards For the Year Ended 12/31/2021 (3-000-24-021-R)

This memorandum transmits the final audit report on the recipient contracted audit of the Schedule of Expenditures Incurred by People In Need (PIN) in Multiple Countries Under Multiple Awards from January 1, 2021, through December 31, 2021. PIN contracted with the independent certified public accounting firm Ernst & Young–Middle East (EY) to conduct the audit. EY stated that it performed its audit in accordance with generally accepted government auditing standards. However, it did not have an external quality control review by an unaffiliated audit organization to fully satisfy the standards' requirements since no such program is offered by professional organizations in the West Bank and Gaza. EY is responsible for the enclosed report and the conclusions expressed in it. We do not express an opinion on PIN's schedule of expenditures; the effectiveness of its internal control; or its compliance with the award, laws, and regulations.¹

The audit objectives were to (1) express an opinion on whether the schedule of expenditures for the period audited, was presented fairly, in all material respects; (2) evaluate PIN's internal controls, assess control risk, and identify significant deficiencies, including material internal control weaknesses; (3) determine whether PIN complied, in all material respects, with the award terms including cost-sharing, and applicable laws and regulations that have a direct and material effect on the schedule of expenditures; (4) determine whether PIN has taken adequate corrective action on prior audit report recommendations; (5) determine if PIN took adequate corrective action on prior audit report recommendations and (6) analyze the indirect cost rate if the recipient charges indirect costs to the U.S. Agency for International Development

¹ We reviewed the audit firm's report for conformity with professional reporting standards. Our desk reviews are typically performed to identify any items needing clarification or issues requiring management attention. Desk reviews are limited to review of the audit report itself and excludes review of the auditor's supporting working papers; they are not designed to enable us to directly evaluate the quality of the audit performed.

(USAID) using provisional rates. To answer the audit objectives, EY (1) reviewed the agreements between USAID and PIN and the sub-agreements/subaward signed between the prime recipient of USAID funds and PIN, including all special rules and regulations; (2) reviewed the sub-agreements/sub-award between PIN and other implementing entities; (3) reviewed the contracts and sub-contracts with third parties; (4) reviewed the budgets, programs implementation letters, and written procedures approved by USAID to manage the programs; (5) reviewed PIN's financial and progress reports; charts of accounts, organizational charts; accounting systems descriptions; procurement policies and procedures; and receipt, warehousing, and distribution procedures for materials; and (6) followed-up prior audit/financial reviews' recommendations. The report on the schedule of expenditures of USAID awards disclosed that USAID's audited expenditures were \$44,653,124 for the year ended December 31, 2021.

EY concluded the schedule of expenditures presented fairly, in all material respects, the programs' revenues, costs incurred and reimbursed, and commodities and technical assistance directly procured by USAID for the Programs from January 1, 2021, to December 31, 2021, in accordance with the terms of the agreements, and in conformity with the accrual basis of accounting. EY noted four significant deficiencies in internal control. EY did not identify any material instances of noncompliance required to be reported under U.S. Government Auditing Standards. However, EY noted that there were 10 prior year recommendations related to matters of internal control and compliance; five were cleared, one is ongoing, and the remaining four were not implemented. Although we are not making a recommendation for the significant deficiencies identified in the report, we suggest that USAID's Office of Acquisition and Assistance, Cost Audit and Support Division, Contract Audit Management Branch determine if PIN addressed the issues noted. Finally, EY submitted a management letter dated September 21, 2022, wherein it reported deficiencies in PIN's internal control processes and immaterial instances of noncompliance.

OIG does not routinely distribute independent public accounting reports beyond the immediate addressees because a high percentage of these reports contain information restricted from release under the Trade Secrets Act, 18 U.S.C. 1905 and Freedom of Information Act Exemption Four, 5 U.S.C. 552(b)(4) ("commercial or financial information obtained from a person that is privileged or confidential"). In addition, USAID OIG has determined that this transmittal memo and the enclosed report are not subject to notification and reporting requirements under Section 5274 of the National Defense Authorization Act.²
