SUBJECT: Examination of Costs Claimed on Flexibly Priced Contracts by Remote Medicine, Inc. for the Fiscal Year Ended December 31, 2018 (3-000-22-001-I)

This memorandum transmits the final examination report on Remote Medicine, Inc.'s (RMI) in-scope contracts and subcontracts for the fiscal year ended December 31, 2018. The U.S. Agency for International Development (USAID) Office of Acquisition and Assistance, Cost, Audit, and Support Division contracted with the independent certified public accounting firm of Booth Management Consulting, LLC (BMC) to conduct the examination. The audit firm stated that it performed its examination in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in generally accepted government auditing standards. The audit firm is responsible for the enclosed report and the conclusions expressed in it. We do not express an opinion on whether costs claimed by RMI on in-scope contracts and subcontracts for the fiscal year ended December 31, 2018 are allowable, allocable and reasonable in accordance with contract terms; Part 31 of the Federal Acquisition Regulation (FAR); Agency for International Development Acquisition Regulation (AIDAR); Department of State Standardized Regulation (DSSR); and 2 Code of Federal Regulations (CFR) 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, as applicable.¹

The examination's objective was to express an opinion on whether the costs claimed by RMI on in-scope contracts and subcontracts for the fiscal year ended December 31, 2018 are allowable, allocable, and reasonable in accordance with award terms; Part 31 of the FAR; AIDAR; DSSR; and 2 CFR 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, as applicable. To answer the examination's objective, BMC designed its testing procedures to evaluate the internal control environment surrounding RMI's subcontract management process and to verify that RMI had adequate controls in place for monitoring subcontractor costs. Its examination included the reconciliation of the adjusted total costs

booked to date and the cumulative amount billed, by contract and reporting any over/under-billings. The audit firm examined USAID incurred costs of \$62,900,357 for the fiscal year ended December 31, 2018.

The audit firm expressed a qualified opinion due to submitted amounts that did not materially comply with contract terms pertaining to accumulating and billing incurred amounts. According to BMC, except for the instances of non-compliance described above, costs claimed by RMI on in-scope contracts and subcontracts for the fiscal year ended December 31, 2018 are allowable, allocable, and reasonable in accordance with contract terms; Part 31 of the FAR; AIDAR; DSSR; and 2 CFR 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, as applicable. BMC's examination did not disclose any findings that are required to be reported under government auditing standards. The audit firm identified \$288,950 in indirect questioned costs composed of adjustments to the General and Administrative cost pool.
