SUBJECT: Closeout Audit of the Schedule of Expenditures of Engicon Co., Management Engineering Services Contract-Phase II Non-Revenue Water Project in Jordan, Contract 72027820C00002, January 1 to December 31, 2024 (8-278-26-005-N)

This memorandum transmits the final closeout audit report of the schedule of expenditures of Engicon Co., Management Engineering Services Contract-Phase II Non-Revenue Water project in Jordan, contract 72027820C00002, from January 1 to December 31, 2024. USAID/Jordan contracted with the independent audit firm Ernst & Young Jordan to conduct the audit. The audit firm stated it performed its audit in accordance with U.S. Government Auditing Standards. However, it did not have an external quality control review program that fully satisfies the standards' requirements. The audit firm explained that professional organizations in Jordan do not offer such a quality control review program. The audit firm is responsible for the enclosed report and the conclusions expressed in it. We do not express an opinion on the auditee's schedule of expenditures; the effectiveness of its internal control; or its compliance with the award, laws, and regulations.¹

The audit objectives were to: (1) express an opinion on whether the schedule of expenditures of USAID's award for the period audited was presented fairly, in all material respects; (2) evaluate the auditee's internal controls; and (3) determine whether the auditee complied with the award's terms and applicable laws and regulations. To answer the audit objectives, the audit

firm performed the subject financial audit that covered \$4,075,026 from January 1 to December 31, 2024.

The audit firm concluded that the schedule of expenditures of USAID's award presented fairly, in all material respects, program revenues and costs incurred under the award for the period audited. The audit firm did not identify any material internal control weaknesses or any material instances of noncompliance. The audit firm noted certain matters involving internal controls and its operations, which were reported to Engicon's management in a separate letter dated September 9, 2025. However, the management letter was not submitted for our review.

During our desk review, we noted an area for improvement which the audit firm should address in future audit reports. We presented the deficiency in a memo to USAID, dated March 3, 2026.

The report does not include any recommendations for your action.
